Election/Restrictions

Claims 24-41 and 49-57 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), **claims 42-48**, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, **are hereby rejoined** and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on June 2, 2010 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Terminal Disclaimer(s)

The terminal disclaimer filed on March 22, 2011 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of copending Application No. 11/918,522 has been reviewed and is accepted. The terminal disclaimer has been recorded.

EXAMINER'S AMENDMENT

The application has been amended as follows:

1. Delete "conventionally" from claim 42, line 4.
2. Delete "in a conventional way" from claim 44, line 9.
3. Delete "in a conventional way" from claim 46, line 8.
4. Insert the following on line 3 of claim 48 after the "claim 24" and before the period",
wherein the at least one active compound is a fungicide".

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Applicants' submission of a proper terminal disclaimer has overcome the obviousness-type double patenting rejection over copending Application No. 11/918,522. The prior art does not teach or fairly suggest an active compound formulation comprising (a) at least one active compound selected from the group of plant protection active compounds that has a solubility in water of less than 1,000 mg/L at a temperature of 20 C, (b) at least one random copolymer formed from monomers i), ii), having the structures depicted in independent claim 24, and optionally additional monomers, and optionally (c) additional additives. It is noted that the phrase "to the greatest extent" with regards to the removal of solvent is defined in Applicants' specification at page 18, lines 24-26.

The closest prior art is Huth et al. (U.S. Patent No. 5,319,093), which discloses formulations comprising a water-soluble fungicidal copolymer comprising benzimidazolylcarbamic acid methyl ester and 2-acrylamido-2-propanesulfonic acid (AMPS)

Art Unit: 1616

monomer. Huth does not disclose, teach, or fairly suggest compositions wherein the active agent has the solubility recited in Applicants' claim 24. The next closest art is Suarez-Cervieri (US 2005/0032903), which is not available as prior art due to the §103(c) exception. Thus, for the aforementioned reasons claims 24-57 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James H. Alstrum-Acevedo whose telephone number is (571) 272-5548. The examiner can normally be reached on M-F, ~10:00-6:00 and Saturdays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Johann Richter can be reached on (571) 272-0646. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
